Probability Formulas
Probability Range
$0 \leq \mathrm{P}(\mathrm{A}) \leq 1$
Rule of Complementary Events
$P\left(A^{c}\right)+P(A)=1$
Rule of Addition
$\mathrm{P}(\mathrm{A} \cup \mathrm{B})=\mathrm{P}(\mathrm{A})+\mathrm{P}(\mathrm{B})-\mathrm{P}(\mathrm{A} \cap \mathrm{B})$
Disjoint Events
Events A and B are disjoint iff
$\mathrm{P}(\mathrm{A} \cap \mathrm{B})=0$
Independent Events
Events A and B are independent iff
$\mathrm{P}(\mathrm{A} \cap \mathrm{B})=\mathrm{P}(\mathrm{A}) \cdot \mathrm{P}(\mathrm{B})$
Conditional Probability
$P(A \mid B)=P(A \cap B) / P(B)$
