

## C program to convert a number in Inch to Feet.

Sol.

```
#include<stdio.h>
int main()
{
float inch, feet;
printf("Enter any number in Inch: n");
scanf("%f", & inch);
//1 Feet = 0.0833333 Inch
feet = 0.0833333 * inch;
printf ("Value in Inch is:n%f", feet);
return 0;
}
```

Output:

```
Enter any number in Inch:
2
Value in Inch is:
2.000000
```
