#16. What is the purpose of a default gateway in IP networking?

It is a device that connects a local network to other networks

It is a device that connects a local network to other networks

It encrypts data for secure transmission

It encrypts data for secure transmission

It filters incoming emails

It filters incoming emails

It converts analog signals to digital

It converts analog signals to digital

It manages printer settings

It manages printer settings

#17. Which network device is used to connect multiple networks together and make decisions about where to send data packets?

Router

Router

Switch

Switch

Hub

Hub

Modem

Modem

Firewall

Firewall

#18. What is the purpose of an IP address in a computer network?

To identify a device on the network

To identify a device on the network

To determine the color scheme of a website

To determine the color scheme of a website

To play multimedia files

To play multimedia files

To manage printer settings

To manage printer settings

To send emails

To send emails

#19. What is the function of a repeater in a network?

It amplifies and regenerates data signals to extend the range of a network

It amplifies and regenerates data signals to extend the range of a network

It encrypts data for secure transmission

It encrypts data for secure transmission

It filters incoming emails

It filters incoming emails

It converts analog signals to digital

It converts analog signals to digital

It manages printer settings

It manages printer settings
