Practice Problem

The postorder traversal of a binary tree is 11,12,10,16,19,18,20,15. The inorder traversal of the same tree is 10, 11, 12, 15, 16, 18, 19, 20. The height of a tree is the length of the longest path from the root to any leaf. The height of the binary tree above is _
