

## VB.Net code to do data base connection with MS Access 2010

```
Private Sub btnSave_Click(sender As System.Object, e As System.EventArgs) Handles btnSave.Click
    MsgBox("Sure! Save permanently in database", MsgBoxStyle.Information, "SAVE")
    Dim cnn As OleDbConnection = New OleDbConnection
    Dim cmd As OleDbCommand = New OleDbCommand
    Dim connString As String
    connString = "Provider=Microsoft.ACE.OLEDB.12.0;Data Source = E:aDBAtndcDB.accdb"
    cnn.ConnectionString = connString
    cmd.Connection = cnn
    cnn.Open()
    cmd.CommandText = "INSERT INTO Attendance ([dat], [totalPresent]) + " VALUES ('" & dt.Text & "', '" &
    lblTotalPresent.Text & "'"
    cmd.ExecuteNonQuery()
    cnn.Close()
End Sub
```
