UGC NET 2018 :

_____ command is used to remove a relation from an SQL database.

(a) Remove table

(b) Delete table

(c) Update table

(d) Drop table

Solution:

The drop table command is used to delete a table and all rows in the table.

DROP TABLE student;

The DELETE statement is used to delete existing records in a table.

DELETE FROM Student WHERE Name= 'Kunal';

The UPDATE statement is used to modify the existing records in a table.

UPDATE Student

SET Name = 'Kunal', City= 'Burhanpur'

WHERE RollNumber= 1201;
